IT'S TIME TO *FACE IT!*

Approximately 60,000 View Face It Webcast In First Four Hours

The Face It webcast is live! Join the thousands of people already watching on www.architecture2030.org! Come prepared to be informed and inspired.

Here are some tips for watching the webcast:

- Make sure you have the **Flash 9 Player**.
- Use the highest speed Internet service you have available.
- Close down all other programs, including email, when watching.
- Allow several minutes for the webcast to load.
- If playback is choppy, close and relaunch.
- Refer to our **Frequently Asked Questions** section for more help.

FED'S TO CANCEL 'CLEAN COAL' DEMONSTRATION PLANT

Fed's Cite Huge Price Tag

The U.S. Department of Energy plans to pull its support of a \$1.8 billion project to build an experimental coal-fired power plant, due to ballooning costs. The plant's carbon capture and storage technology has yet to be proven on a large, cost-effective scale.
